

The Ecosystem Global Digital Futures Awards are a yearly awards series which recognises excellence in the areas of FinTech, HealthTech, and Tech for Good. The Awards highlight organisations that are creating Impact, demonstrating Innovation and building Ecosystems to shape the Digital Future.

ABOUT THE AWARDS

The Digital Futures Awards are an independent non-sponsored global awards program that evaluates organisations that are leading the way within their industry segment through digital innovation. Shortlisted nominations are then evaluated through a stringent judging process, using multiple, focused criteria by an international panel of judges that include renowned industry experts and influencers. A list of finalists is announced, from which a winner is selected. There is no fee associated with nominations and the use of the associated Awards logo by the winners in their marketing activities.

AWARDS UNDER THE FINTECH CATEGORY

Nominations for this category will be open until the 31st of August 2021 for FinTechs that have demonstrated success in these areas. Further details for each category can be found on the nomination form [here](#).

	Global Customer Experience Award		Global Payments Award
	Global Lending Award		Global Banking Award
	Global InsureTech Award		Financial Inclusion Impact Award
	Global Platform Award		Sustainable Finance Impact Award

The Awards process will involve the nominations being evaluated by a panel comprising renowned global leaders, industry experts, and Ecosystem analysts. Organisations may also nominate themselves or their partners by following this link awards.ecosystem360.com
